H_neg_C_pos
GO Biological Process
glycoprotein metabolic process
glycoprotein biosynthetic process
endoplasmic reticulum mannose trimming
intracellular monoatomic cation homeostasis
monoatomic cation homeostasis
intracellular chemical homeostasis
intracellular monoatomic ion homeostasis
protein demannosylation
protein alpha−1,2−demannosylation
monoatomic ion homeostasis
calcium ion transport
plasma membrane bounded cell projection morphogenesis
cell projection morphogenesis
regulation of leukocyte migration
leukocyte migration
cellular response to mechanical stimulus
cellular response to external stimulus
positive regulation of molecular function
positive regulation of chemokine production
positive regulation of catalytic activity
regulation of tissue remodeling
actin crosslink formation
