Chimp_higher
GO Biological Process
ribonucleoprotein complex biogenesis
rRNA processing
rRNA metabolic process
ribosome biogenesis
mitochondrial translation
mitochondrial gene expression
protein−RNA complex assembly
protein−RNA complex organization
spliceosomal snRNP assembly
RNA splicing, via transesterification reactions
antigen processing and presentation of peptide antigen
antigen processing and presentation of exogenous antigen
antigen processing and presentation of exogenous peptide antigen
antigen processing and presentation via MHC class Ib
MHC protein complex assembly
peptide antigen assembly with MHC protein complex
antigen processing and presentation of endogenous antigen
antigen processing and presentation
antigen processing and presentation of peptide antigen via MHC class Ib
antigen processing and presentation of endogenous peptide antigen
antigen processing and presentation of peptide antigen via MHC class I
antigen processing and presentation of endogenous peptide antigen via MHC class I
regulation of T cell mediated cytotoxicity
response to bacterium
wound healing
cell killing
organic anion transport
external encapsulating structure organization
extracellular matrix organization
extracellular structure organization
collagen fibril organization
blood vessel development
positive regulation of response to external stimulus
blood vessel morphogenesis
