n complex biogenesis
NA metabolic process
rRNA processing
tion of peptide antigen
of exogenous antigen
enous peptide antigen
ation via MHC class Ib
ein complex assembly
MHC protein complex
f endogenous antigen
ritic cell differentiation
sing and presentation
igen via MHC class Ib
enous peptide antigen
sma membrane fusion
sma membrane fusion
ion of myoblast fusion
cell killing
ion of myoblast fusion
cid metabolic process
e mediated cytotoxicity
ytoplasmic translation
ntigen via MHC class I
egulation of cell killing
oled electron transport
oled electron transport
ectron transport chain
lative phosphorylation
ectron transport chain
ectron transport chain
ondrial ATP synthesis
-driven ATP synthesis
cellular respiration
aerobic respiration
ribonucleoprotein complex biogenesis
rRNA metabolic process
rRNA processing
ribosome biogenesis
mitochondrial translation
mitochondrial gene expression
protein−RNA complex assembly
protein−RNA complex organization
RNA splicing, via transesterification reactions
RNA splicing, via transesterification reactions with bulged adenosine as nucleophile
antigen processing and presentation of peptide antigen
antigen processing and presentation of exogenous antigen
antigen processing and presentation of exogenous peptide antigen
antigen processing and presentation via MHC class Ib
MHC protein complex assembly
peptide antigen assembly with MHC protein complex
antigen processing and presentation of endogenous antigen
antigen processing and presentation
antigen processing and presentation of peptide antigen via MHC class Ib
antigen processing and presentation of endogenous peptide antigen
antigen processing and presentation of peptide antigen via MHC class I
cell killing
antigen processing and presentation of endogenous peptide antigen via MHC class I
T cell mediated cytotoxicity
regulation of T cell mediated cytotoxicity
response to bacterium
organic anion transport
xenobiotic metabolic process
external encapsulating structure organization
extracellular matrix organization
extracellular structure organization
collagen fibril organization
blood vessel development
positive regulation of T cell mediated cytotoxicity
positive regulation of response to external stimulus
regulation of syncytiu
negative regulation of syncytiu
syncytiu
double−strand bre
mitochondrial
genera
energy deriv
