ribonucleoprotein complex biogenesis
ribosome biogenesis
rRNA processing
rRNA metabolic process
mitochondrial gene expression
glycoprotein metabolic process
glycoprotein biosynthetic process
endoplasmic reticulum mannose trimming
intracellular monoatomic cation homeostasis
monoatomic cation homeostasis
tissue remodeling
mitochondrial translation
protein maturation
transmission of nerve impulse
calcium ion transport
detection of stimulus involved in sensory perception
plasma membrane bounded cell projection morphogenesis
cell projection morphogenesis
regulation of leukocyte migration
leukocyte migration
cellular response to mechanical stimulus
cellular response to external stimulus
organic anion transport
organic acid transport
carboxylic acid transport
epidermis development
respiratory electron transport chain
electron transport chain
ATP synthesis coupled electron transport
mitochondrial ATP synthesis coupled electron transport
aerobic electron transport chain
extracellular matrix organization
extracellular structure organization
external encapsulating structure organization
