

Heatmap visualization showing the enrichment of biological processes across different clusters. The y-axis lists biological processes, and the x-axis shows clusters (clust1 to clust16). A color scale on the right indicates the enrichment level (matrix_3) from 0 (white) to 30 (dark red). Asterisks (*) mark specific cells of interest.

Biological processes listed on the y-axis (from top to bottom):

- metabolic process
- macromolecule metabolic process
- primary metabolic process
- RNA processing
- nucleic acid metabolic process
- RNA biosynthetic process
- gene expression
- nucleic acid biosynthetic process
- nucleobase-containing compound metabolic process
- RNA metabolic process
- cell cycle process
- cell cycle
- chromosome segregation
- mitotic cell cycle
- nuclear division
- mitotic cell cycle process
- organelle fission
- cell division
- chromosome organization
- nuclear chromosome segregation
- multicellular organismal process
- regulation of cell migration
- regulation of cell motility
- cell migration
- cell motility
- system development
- developmental process
- anatomical structure morphogenesis
- multicellular organism development
- anatomical structure development
- ribonucleoprotein complex biogenesis
- ribosome biogenesis
- RNA processing
- RNA metabolic process
- ribosomal small subunit biogenesis
- ribosomal large subunit biogenesis
- maturational process
- anterior/posterior pattern specification
- segmentation
- positive regulation of heart growth
- regulation of organ growth
- heart growth
- cytoplasmic translation
- negative regulation of wound healing
- regulation of multicellular organismal process
- tissue development
- animal organ development
- animal organ morphogenesis
- cell surface receptor signaling pathway
- nervous system development
- cardiac muscle tissue development
- muscle contraction
- regulation of blood circulation
- regulation of heart contraction
- heart contraction
- heart process
- regulation of system process
- regulation of muscle system process
- circulatory system process
- blood circulation
- muscle system process

Clusters on the x-axis: clust1, clust10, clust3, clust9, clust4, clust11, clust12, clust2, clust7, clust8, clust5, clust6.

Color scale (matrix_3): 0 (white), 10 (light red), 20 (medium red), 30 (dark red).
