

clust12 : Transcriptional misregulation in cancer  
clust11 : Circadian entrainment  
clust11 : Adrenergic signaling in cardiomyocytes  
clust11 : GABAergic synapse  
clust10 : DNA replication  
clust10 : Cell cycle  
clust10 : Fanconi anemia pathway  
clust9 : Cytoskeleton in muscle cells  
clust9 : Adrenergic signaling in cardiomyocytes  
clust9 : Dilated cardiomyopathy  
clust7 : Diabetic cardiomyopathy  
clust7 : Oxidative phosphorylation  
clust5 : Coronavirus disease – COVID–19  
clust5 : Ribosome  
clust5 : Complement and coagulation cascades  
clust3 : Calcium signaling pathway  
clust3 : Neuroactive ligand–receptor interaction  
clust3 : KEGG root term  
clust1 : Spliceosome  
clust1 : Ubiquitin mediated proteolysis  
clust1 : Basal transcription factors
