wound healing
response to wounding
regulation of peptidyl−tyrosine phosphorylation
regulation of leukocyte migration
regulation of cell motility
regulation of cell migration
protein autoprocessing
positive regulation of signaling
positive regulation of peptidyl−tyrosine phosphorylation
positive regulation of locomotion
positive regulation of cell motility
positive regulation of cell migration
positive regulation of cell communication
hemostasis
coagulation
cell surface receptor signaling pathway via STAT
cell surface receptor signaling pathway
cell motility
cell migration
cell adhesion
cell−cell adhesion
blood coagulation
anterior neural tube closure
GO Term
clust3
