KEGG Enrichment Heatmap
Type I diabetes mellitus
Graft−versus−host disease
Allograft rejection
Autoimmune thyroid disease
Viral myocarditis
Asthma
Staphylococcus aureus infection
Antigen processing and presentation
Ribosome
Coronavirus disease − COVID−19
Insulin signaling pathway
Spliceosome
Ubiquitin mediated proteolysis
T cell receptor signaling pathway
Nucleocytoplasmic transport
RNA degradation
Polycomb repressive complex
Autophagy − animal
mRNA surveillance pathway
Progesterone−mediated oocyte maturation
Parkinson disease
Huntington disease
Linoleic acid metabolism
Alzheimer disease
